THE DAILY SENTINEL. KING & WM. H. WATSON, PROPRIETORS, Ender the Name and Firm of Butus King & Co.

MILWAUKEE:

Tuesday Morning, May 19. Milwauker & Mississippi R. H.-The Brenches Repaired.

We learn from Mr. MERRILL, the Assistant Superintendent, that the track has been repaired s) that passengers by the 11 A. M. train to-day will go through to Prairie du Chien, and the trains run regularly hereafter, except that the 8.30 A. M. accommodation train will not be put on till further notice. over the same days of last year. Later From Europe.

The Anglo Saxon arrived at Quebec on Es urday and the Arago at New York yesterday, with several day's later dates from Europe. The news will be found under the Telegraph head ---Aside from the fact that Breadstuffs were rather better, the intelligence is not of much interest.

Ice in Lake Superior. It will be seen by the article we copy from the Detroit Free Press of the 17th instant, that on the 14th the navigation of Lake Superior was still obstructed by ice and the fleet of steam and sail vessels were embargoed at Whiskey Bay.

Shipments from Milwauker. Our Weekly Market Review this morning the produce trade of this port. The shipments of wheat and flour from Milwankee, thus far this season, foot up 71,894 bbls. flour, and 608,668 bus, wheat, being considerably more than double the quantity shipped to the same date last year.

Inexcusable Misrepresentations. The Free Democrat, of Saturday, publishes a letter from J. F. Mygns, late associate edito: of that paper, dated Madison, May 14th, in which, after anything but a complimentary notice of our State Capital, the writer proceeds to speak in the following strain of the Milwaukee & Mississippi

Rail Road: The total destruction of large portions of the track of the Milwaukee & Mississippi R. R., is a sed commentary on western railroads. They are built for show rather than use, and cost as much within a few years, to keep them in rope the entire amount of their original cost. the entire amount of their original costs. four weeks ago, this roud was opened, and now miles of its track are six feet under mater, and and it will take a fortnight before another trained in be run to Prairie du Chien. It is to be hoped that the Milwauker and Chiesgo papers will determine the converse up of the co advise the travelling public to go west via (1) iena, inesmuch as they will have to return to Janesville, and take that route, if they come of Janesville, and take that route, if they come of Janesville, and take that route, if they come of the last take they are the are the are the are they are they are they are they are they are the are they are they are the are the are they are the are the are they are the are th to Madison. It will take a week at least for the water in the Wisconsin to subside, and before that time, no repairs can be begon, and it may then take a long time to repair the damage, which, according to the statements of passengers, is very bad.

It would be difficult for the most practiced hand to crowd a greater number of mistatements into the same space; and we confess our surprise that the Free Democrat should have given ourrancy to them. We are assured by the officers of the M. & M. R. R., that instead of "miles of its track being six feet under water," not one foot of it has been overflowed; that so far from large positions" being totally destroyed, only a few rods of the embankment along the Kickepoo bottoms were washed away; that instead of havlog to wait "a week at least" to commence their rapairs, they were begun the day before this va rocious letter was written, and that trains will run through to Prairie du Chien to day, instead of having to wait "a fornight" yet. Under these circumstances, it will hardly be necessary for public "to go west via Galena," though doubtleds our Chicago cotemporaries will speak promptly upon the bint given to them by the Free Dimecrack correspondent. As to the remark that the M. & M. R. R. was "built for show rather than use," it is as unjust and unfounded as the stories about "the total destruction of large portions of the track." In truth, few roads anywhere have been more carefully and substantially built than the M. & M. R. R., and no better proof could be given of this than the mannur in which the Western Division (built last fall and winter) o the road has withstood the impetuous onses o "old Wisconse." The spring floods in this river attained an unprecedented height, and yet not a bridge on the read has been damaged, not a culvert carried away, and the only injury suffered was the undermining of a few rods of new made embankment at the Kickapoo, which was not yet up to grade, or protected by cobols stone as new made road ever underwent so severe a trial with more satisfactory results.

The Chivalry Disgusted.

The Charleston (S. C.) Mercury, the especial organ of that large portion of the chivalry, "ardent as a Southern sun can make them," who believe in Slavery as the bulkwark of our Republic can institutions, and idolized the living, and eulogized the dead bully Brooks, is disgusted at the prospect ahead. It refuses to be comforted when reminded of the election of Mr. Buchauau, for, it asks:

What was the result, so much beasted, of the late Presidential election? In addition to the votes of the South, Mr. Buchanan, the candidate acceptable to this section from his support of the Constitution and the rights of the South therein guarantied, received the votes of but five Northern Sates. Of these five he received a majority vote of but one—his native State of Pennsylvania. The others—Now Jersey, Indiana, Ikinois and California—gave only a plurality vote for him, the majority vote being divided between two northern anti-slavery mon, Fremont and Fillmore. Pennsylvania, then, alone voted with the South by a diminutive majority of one thousand and twenty five, and she was urged by State pride and the desire of clevating one of her cons to t is great office. Since casting that votes of the South, Mr. Buchanan, the candida her sons to t is great office. Since casting that vote, Pennsylvania has indicated her true posivote, rennsylvanta has indicated her true posi-tion, in the election of a Senator to Congress; and she has chosen Cameron, an abolitioniss and enemy of the South, to represent her in the Sou-ate. Where, then, do we find encouragement in this hope of protection from the Northern major-

Such encouragement, the Mercury thinks, is small, poor, and scarce. The general reputation of the Dred Scott decision burnishes no comfort The aid to Kansas voted by northern Legislatures hurts its feelings. The persistent efforts of northern freemen, in spite of northern doughface "democrata," to make Kansas free, are arrows in its soul. The project to colenize Virgin-La with free settlers fills the writer with horror, and his very blood freezes at the thought that the Noriolk, Va., Herald invites the settlers .-The election of May or Wimer in St. Louis, and the progress of emancipation doctrines in Missou i, put the climax to the Mercury's discomforts Can't some of our Hunker friends put a plaster on its wounds !

POLICE COURT; MAY 18.

BEFORE CLINTON WALWORTH, FOLICE JUSTICE. The Police Court was densely crowded nearly all the forasoon yesterday. Sunday, one would think there ought to be but little disturbance of the peace; on the contrary there is no day upon which so much rist and drunk canes cour. This proves the truth of the old adage, that "an little mind is the workship of mischief;" but we cannot complete of having more than our share-we have, in fact, less crime or so large and mixed a population than any other city h

I was an eye-winess of a severe trially of one of those roofs from a large volume of flame from an adjoining building, which struck directly upon the roof and cornice for nearly half an hour.
